

Rock `n Roll

The king is dead, there`s nothing here to remind me of him
The king ain`t dead, his music`s here to stay beside me and
To keep my motor running, to keep me dancing through
To keep my mind alive and not to make me blue
To feel alright and to set my soul on fire
Come on baby even if

You don`t know where`s your home
(If) you don`t know how to feed your soul

Get yourself together even if it`s hard to do
Get yourself together Rock n`Roll will guide you through
even if hope is gone away, even if truth is gone away
it reminds you of better days and it keeps you alive even if

You don`t know where`s your home
(If) you don`t know how to feed your soul
